<b>Important:</b> Diagnostic or therapeutic services rendered in physician offices, testing centers or other outpatient locations that are owned and operated by a hospital system are considered by the hospital system to be departments of the hospital. As a result, FHCP will be billed by the hospital for such services, and the member's outpatient hospital benefit will be applied to these claims. Therapeutic services will incur separate charges for the facility service, physician fee and medical pharmacy. FHCP's Provider Directories and online Provider Search application provides information regarding which provider offices are actually hospital outpatient departments. Members should contact FHCP's cost estimation center to determine if having the diagnostic test or service performed in a hospital or hospital owned facility will result in higher cost sharing.
